HOW TO USE THIS DOCUMENT

The purpose of this document is to provide candidates on the course with some practical assignments in relation to the drafting of liquidation and distribution accounts. The assignments start with a few basic aspects, with the assignments becoming more complex as the work progresses. These assignments culminate in the final assignment (assignment 10) which is indicative of the type of question candidates can expect to receive in the formal assessment (examination).

The reason this document is being provided is due to the fact that it is not possible to provide past examination papers on this course. The reason for being unable to provide past papers is due to the fact that neither SARIPA nor INSOL International own the copyright in the past papers.

ASSIGNMENT 1

ASSIGNMENT 10

In 2016 Marena Buitendag started her own business by incorporating the company **Happy Homes (Pty) Ltd**. Marena and her husband Gert were the only shareholders and directors of the company, with Marena holding 51% of the shares and her husband Gert holding the remaining 49%. The main business of Happy Homes was the publication of a magazine carrying advertisements relating to do-it-yourself and other home improvement products and services in the city of Bloemfontein. The company's income was generated by selling advertising space in their magazine, aptly called *Happy Homes*.

Initially the *Happy Homes* magazine was a great success, with businesses clamouring to place their advertisements in the magazine which was distributed throughout the Free State. However, in 2018 a competitor magazine, offering identical products but at a lower advertising fee, entered the Free State market. This magazine, called *Heavenly Homes*, soon put pressure on the income generated by the *Happy Homes* publication. Happy Homes (Pty) Ltd tried unsuccessfully to put a stop to the competition created by *Heavenly Homes*, even approaching the court in a number of court applications to try and prevent them from publishing the competitor magazine. The cost involved in the court applications soon had Happy Homes hovering on the brink of insolvency.

After having not been paid a salary for nearly three months, the sales representatives for *Happy Homes*, Charl van Deventer, brought an application for the winding-up of Happy Homes (Pty) Ltd on the ground of the company's inability to pay its debts. The application was lodged with the Registrar of the Free State Provincial Division of the High Court in Bloemfontein on 4 April 2020. On 8 April 2020 the High Court in Bloemfontein granted a final winding-up order, placing Happy Homes (Pty) Ltd in liquidation.

You are required to draft a **Liquidation and Distribution and / or Contribution Account** together with a **Bank Reconciliation Statement** in this estate, reflecting all the facts furnished hereunder. It is essential that you take note of the following important information when drafting this account:

- You need not prepare a liquidator's affidavit nor insert dates, addresses, voucher numbers and repetitive headings.
- All interest calculations in respect of a secured claim(s) must be shown and reflected in the relevant Encumbered Asset Account(s).
- In the event of you making assumptions, you are to clarify same by stating why you are of the opinion that insufficient facts have been given or, where in your opinion, the facts given are ambiguous.
- The expected date of confirmation of the account is **19 January 2021**. You are to assume that all final payments will be made on this date.

- The account may be drafted in any order that suits you.
- In the Distribution and / or Contribution Account you are to reflect at least the total claim and the secured, statutory preferent and concurrent portion of each claim separately. You need not provide for a shortfall (deficiency) column in respect of any of the claims and you need not add up unnecessary totals. The Distribution and / or Contribution Account must reflect awards to all classes of creditors, ie secured, preferent and, where applicable, concurrent creditors, as well as the amount upon which contribution is payable (if any) and the amount of contribution payable by each creditor, if applicable.
- **Happy Homes (Pty) Ltd** is registered as a vendor in terms of the Value-Added Tax Act. Your account must therefore make provision for Value-Added Tax (VAT). Provision must be made in the account for the allocation of VAT in which you show the estate's liability for VAT. You may include this calculation either in the body of the account or by way of a separate schedule.
- **The liquidator** is registered with the South African Revenue Service as a VAT vendor. His / her remuneration must be reflected in accordance with the *Spendiff* decision. These calculations may likewise be contained either in the body of the account or in a separate schedule.
- Where it is stated in the facts that an amount includes VAT, please accept that VAT is indeed included in such amount, even if you are of the opinion that, in practice, VAT would not have been included in such amount. Conversely, if it is stated that VAT is excluded you are to treat it as such, and accept that no VAT is payable even if you are of the opinion that, in practice, VAT would indeed be payable.
- Use only the amounts provided for in the given set of facts. It is unnecessary for you to make up your own amounts for the purposes of this question. You are, however, required to calculate and reflect the statutory fees due to the Master of the High Court and the liquidator's remuneration.
- Please note that some calculators may require that the amounts must be rounded off to the nearest cent. Minor errors made by students in this regard will not be penalised. Likewise, students will be given a leeway of two (2) days each way in regard to the number of days on which interest calculations are made. **[100]**
