## INFORMATION ON THE LEVEL OF THE QUALIFICATION

### Admissions requirements

Information on the minimum qualifications necessary to be considered for entry to a course (including English language requirements, other required skills or experience) is given on the relevant course page: <https://www.bpp.com/courses>.

### INFORMATION ON THE CONTENTS AND RESULTS GAINED (continued from previous page)

**Type:** Core = A core module required for completion of the award. Option/Elective = The student has elected to undertake this module in completion of the award.

**Attempt:** Number of examination attempts undertaken by students. If this is an overall aggregate mark this is the last attempt of any component examination.

**Mark:** Mark awarded for the assessment component or the module overall. For the majority of awards, numeric marks are awarded on the scale 0-100. The pass mark is given in the relevant Module Specification.

**Grade:** For programmes for which there are professional, regulatory or statutory body grading requirements which differ from those set out in the University General Academic Regulations, a statement will be included within the transcript detailing applicable grading descriptors.

**Date:** Date on which the assessment was undertaken.

### Programme Requirements

A Programme Specification is produced for each BPP University course leading to a University award. Information stipulated in the programme specification can be found under the relevant course on the University's Courses webpage: <https://www.bpp.com/courses>.

Information about University academic regulations, policies, and procedures can be found in the BPP University General Academic Regulations and Manual of Policies and Procedures, which can be found on the University's Academic Quality webpage: <https://www.bpp.com/about-bpp/bpp-university/academic-quality>.

**Credit structure** Each individual module has a credit value. Each credit point relates to ten notional learning hours. Two credit points awarded by BPP University equate to one European Credit Transfer System (ECTS) credit point. There may be exceptions to the standard credit totals owing to entry at a later stage of the course, or Accreditation of Prior (Experiential) Learning (AP(EL)), or because of a change of course or the need to take a stage of the course for a second time.

### Grading scheme

Numeric marks are awarded on the scale 0-100. For modules at Levels 4, 5 and 6, mapped to the levels specified by the QAA National Framework for Higher Education Qualifications, the module pass mark is 40%. For the majority of modules at Level 7, the module pass mark is 50%. University policies and procedures with regards to assessment are set out in the University's General Academic Regulations, including the regulations with regard to reassessment, classification of awards, rounding of numeric marks and consideration of borderline assessments.

Specific information on the classification of BPP University Awards can be found in Part H: Examination and Assessment, Sections 1-3 of the Manual of Policies and Procedures:
