### QUESTION 2 (direct questions) [10 marks]

#### Question 2.1 [maximum 2 marks]

Explain what the term "international insolvency law" means.

[It means a complex set of rules and prerogatives that establishes a better way of dealing with the procedures of companies in crisis and third parties at the international level. It also includes deal with different cultures, legal issues and basic rights.]

More detail would have improved the mark awarded for this sub-question.

1.5

#### Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

[These two concepts are much discussed because universality brings the idea that insolvency procedures should be ideally the same in all countries in order to "facilitate" the local barriers and territoriality brings the idea that the insolvency procedures should be limited to the local place where it started, observing only the local laws.]

These theories also involve recognition and effect (as well as jurisdiction) in that for example, with universalism, recognition and effect requires that other States recognise that one set insolvency proceedings (that all agreed is the appropriate jurisdiction) and recognise it as having extraterritorial effect in their States.

More detail and deeper consideration would be beneficial to improve your mark.

#### Question 2.3 [maximum 3 marks]

Describe **three** recent examples of developments in the Middle East region to reform domestic insolvency laws or to address international insolvency Issues.

[Since the World Bank's Principles for Effective Insolvency and Creditor Right System was indicated as a guide for best practices in 2005, this region is developing your domestic insolvency system, such as countries as Bahrain, Saudi Arabia and Dubai.]

**More detail would have improved the mark awarded for this sub-question. What reforms occurred in those countries? When? What impact did they have on reforming domestic insolvency laws or addressing international insolvency Issues in the Middle East?**

### **QUESTION 3 (essay-type questions) [15 marks in total]**

#### **Question 3.1 [maximum 5 marks]**

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

[The main differences regarding individuals and corporation objectives is that for individuals, it can help the debtor to take another chance to reduce his debts and stop the creditor claims and for companies, the biggest goal is to try to preserve the business, which includes the place, the investments, the workers, the specific labor or material, saving all the business productive chain and efforts.]

**This answer displays a satisfactory understanding of the issues. To improve your responses, ensure they are commensurate with the mark allocation – while Q 3.1 asks for a brief note, it is for 5 marks.**

**3.5**

#### **Question 3.2 [maximum 5 marks]**

Write a brief note on the difficulties that may be encountered when dealing with insolvency law in a cross-border context relating to pertinent differences in the relevant systems.

[What seems to me a big challenge and difficulty related to the differences in the relevant systems is the cultural matter involving two or more countries or regions. Not only because the local aspect itself but because some systems are more pro-creditor oriented and some are more pro-debtor oriented and that perspective is very important to conduct the insolvency procedures.]

**Further detail would be beneficial. For example, consideration of Westbrook's 9 key issues.**

**3**

#### **Question 3.3 [maximum 5 marks]**

What multilateral steps have been taken in the 21<sup>st</sup> century to promote harmonisation of domestic insolvency laws? In your opinion, how much impact are these likely to have in addressing international insolvency issues? Include reasons for your opinion.

[All countries are making efforts to renew and amend their insolvency law system to promote a better relation and cooperation with the other States. In my opinion the efforts are mostly welcome and shows that countries need to respect foreign laws and need to cooperate with each other as a global behavior to prevent economic crisis and to better handle with insolvency procedures.]

### **QUESTION 4 (fact-based application-type question) [15 marks in total]**

Nadir Pty Ltd ("Nadir") is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd ("Apex") is incorporated and has its head office in Erewhon. Apex

and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

**Question 4.1 [maximum 5 marks]**

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

[Considering this scenario it's important to advise the liquidator that the local laws predominates for this suit in Utopia and that UNCITRAL Model also considers the debtor centre of main interests (COMI) to open and process insolvency claims. Thus, considering that Utopia named it's local laws under the Act and considering the new place where Nadir is registered, the liquidator loses legal strength in trying to stop Apex court in Utopia.]

**The question requires candidates to apply the relevant MLCBI articles to the facts provided in more detail than that above.**

**4**

**Question 4.2 [maximum 2 marks]**

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

- (a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.
- (b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.

[Only in the first scenario (a), because if the matter had not yet been heard, there is not insolvency claim formally installed in Utopia, which means that what prevails by the moment is the Erewhon creditor's charge.]

**The MLCBI is significant for it provisions on concurrent insolvency proceedings in 4.2. Apply the MLCBI provisions on concurrent insolvency proceedings (see Article 29)**

**.5**

**Question 4.3 [maximum 8 marks]**

**NB: This question is not related to Questions 4.1 and 4.2**

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets

and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?

[I chose France, as a European Union State. The four keys that must be observed are (i) the harmonisation of domestic insolvency law; (ii) the law principles; (iii) the uniform recognition laws and (iv) cooperation between countries.

The domestic and international instruments have to "walk together" respecting treaties, the UNCITRAL Guidelines, World Bank's Principle and Cooperation Acts that supports all the challenges that involves the domestic and international insolvency requirements and dynamics.]

**Insufficient detail is provided.**

**For an approach more closely applied to the facts, see the 'Model' Answer for four key international insolvency issues raised by the facts and facing the insolvency representative in this scenario.**
