## QUESTION 2 (direct questions) [10 marks]

### Question 2.1 [maximum 2 marks]

Explain what the term "international insolvency law" means.

This is the general body of rules governing insolvencies that have an international aspect such as a debtor with presence or assets in more than one jurisdiction and in respect of whom insolvency proceedings have been commenced in more than one jurisdiction. Some of these rules are soft law and provide global best practice standards, such as the UNCITRAL Model Law on Cross Border Insolvency. There are also regional rules such as the European Insolvency Regulation (Recast), the OHADA Uniform Act on Insolvency.

2

### Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

Cross border insolvency refers to a situation where a debtor has presence and/ or assets in more than one jurisdiction. Insolvency proceedings may be commenced in one or multiple jurisdictions. Therefore, universality refers to rules that allow for recognition of insolvency proceedings and allow for a single choice of forum while territoriality refers to a jurisdictional approach to insolvency proceedings leading to multiple proceedings.

There is scope to elaborate.

### **QUESTION 3 (essay-type questions) [15 marks in total]**

#### **Question 3.1 [maximum 5 marks]**

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

For individuals, insolvency provides protection from harassment by the debtor's creditors as well as an opportunity for the creditor to make a fresh start. It is not a mechanism for an individual to escape from his or her liabilities, but a shield from the potential harmful effects of individual creditor actions that may impair the ability of a person burdened with debt to be productive. For a corporation, the main objective of insolvency is to preserve a viable business. As Baird, Jackson and Alder (2001) state, corporate insolvency distinguishes between financial and economic distress by provide a mechanism that allows creditors of an insolvent but economically viable firm, to remain in place. Corporate insolvency is also a sword because it allows creditors of take action against wrongdoers, such as directors for wrongful trading.

**There is scope to expand upon issues such as exempt assets.**

#### **Question 3.2 [maximum 5 marks]**

Write a brief note on the difficulties that may be encountered when dealing with insolvency law in a cross-border context relating to pertinent differences in the relevant systems.

[There are various difficulties that may be encountered in a cross- border insolvency such as:

- Differences in the treatment of creditor claims. While there is considerable consistency in the categorization of creditors across (secured, unsecured and preferential creditors), there are jurisdictional differences in the treatment of each of these creditors in situations of insolvency.
- Differences in domestic insolvency law in relation to certain aspects such as voidable preferences.
- Differences in the nature and policy objective of insolvency law. Some jurisdictions may have frameworks that support processes such as corporate rescue while others may have the historical approach liquidating insolvent entities.
- Challenges with access to domestic courts by foreign insolvency practitioners.
- Challenges with recognition of foreign proceedings and decisions of foreign courts.

**Further detail would be beneficial. For example, consideration of Westbrook's 9 key issues.**

### Question 3.3 [maximum 5 marks]

What multilateral steps have been taken in the 21<sup>st</sup> century to promote harmonisation of domestic insolvency laws? In your opinion, how much impact are these likely to have in addressing international insolvency issues? Include reasons for your opinion.

[There are several steps that have been taken to promote harmonisation of domestic insolvency laws. They are broadly two approaches. The first is the development of guides and best practice standards to guide domestic insolvency law reforms such as the World Bank's Principles for Effective Insolvency and Creditor/Debtor Regimes and the UNCITRAL Model Law on Cross Border Insolvency. **While adoption of the MLCBI may harmonise various domestic insolvency laws in so far as they address international insolvency issues, the question addresses more broadly the harmonisation of domestic insolvency laws in general. See the 'model' answer on this sub-question.**

The second approach relates to frameworks developed by regional bodies such as the European Union (the European Insolvency Regulation (Recast) that applies within the European Union and OHADA region in Africa (the Uniform Act on Insolvency) that applies in the 17 OHADA member states.

**What is your opinion on how much impact these are likely to have in addressing international insolvency issues?**

### QUESTION 4 (fact-based application-type question) [15 marks in total]

Nadir Pty Ltd ("Nadir") is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd ("Apex") is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

### Question 4.1 [maximum 5 marks]

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

[ The Cross-border insolvency Act will have provisions for foreign insolvency representative to access the court in Utopia and apply for recognition of foreign insolvency proceedings in Utopia. Therefore, the Erewhon liquidator should be able to access the courts in Utopia and apply for recognition of the Erewhon proceedings. Following recognition of Erewhon's proceedings, the proceedings commenced by Apex will be stayed.]

The question requires candidates to apply the relevant MLCBI articles to the facts provided in more detail than that above.

3

**Question 4.2 [maximum 2 marks]**

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

- (a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.
- (b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.

(a) One of the effects of recognition of foreign proceedings is stay of commencement or continuation of individual actions or proceedings against the debtors or the debtor's assets. Therefore, the winding up proceedings against filed by Apex will be stayed.

(b) The court order to wind up Nadir in Utopia will also be stayed because another effect of recognition of foreign proceedings is a stay of execution against the debtor's assets.

**Refer to Article 29 on concurrent insolvency proceedings, under which the local proceedings in Utopia maintain pre-eminence over the foreign proceedings in Erewhon.**

**Question 4.3 [maximum 8 marks]**

**NB: This question is not related to Questions 4.1 and 4.2**

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?

[The country selected is Uganda. The four key issues are:

- a) Access to foreign courts by the insolvency representative in Uganda. This matter will be determined by cross border legislation in the foreign country.
- b) Recognition of insolvency proceedings in Uganda by foreign courts. Domestic insolvency legislation that has provisions on cross-border insolvency (presumably based on the UNCITRAL Model Law on Cross Border Insolvency) will provide a framework for recognition.
- c) Access to assets of the company in foreign jurisdictions. This matter will be subject to local laws in each jurisdiction.
- d) Claims by foreign creditors. The nature and treatment of creditor claims is subject to local insolvency law in each jurisdiction.

**Provide detail on the Uganda CBI laws to the issues you identify (for this 8 mark question).**
