Questions 1.1. – 1.10. are multiple-choice questions designed to assess your ability to think critically about the subject. Please read each question carefully before reading the answer options. Be aware that some questions may seem to have more than one right answer, but you are to look for the one that makes the most sense and is the most correct. When you have a clear idea of the question, find your answer and **mark your selection on the answer sheet by highlighting the relevant paragraph in yellow**. Select only **ONE** answer. Candidates who select more than one answer will receive no mark for that specific question.

### QUESTION 2 (direct questions) [10 marks]

#### Question 2.1 [maximum 2 marks]

Explain what the term "international insolvency law" means.

International Insolvency Law is defined in text by Wessels and Fletcher, which basically states that it is a body of insolvency rules of different legal systems that cannot be fully enforced, however such domestic insolvency law cannot be fully applied without regard to issues of the foreign elements of the insolvent estate.

**These are authoritative sources. While you have combined their information into other words, it could perhaps better convey your personal understanding.**

1.5

#### Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

Universality entails the recognition of a foreign insolvency practitioner over the debtor whose estate is being wound up in a foreign jurisdiction but has assets locally. This eases the costs and burden on creditors in having one administrator to the estate as opposed to multiple.

Territoriality focuses on taking care of the local creditors and is usually exercised where a local insolvency practitioner is appointed to a debtor whose assets are locally held but who is being wound-up in a foreign jurisdiction. Though this may prejudice the

creditors in terms of costs of administration of the insolvent estate, it may serve to work in favour of the local creditors if there are sufficient assets held locally.

**There is scope to elaborate with respect to recognition and effect in that for example, with universalism, recognition and effect requires that other States recognise that one set insolvency proceedings (that all agreed is the appropriate jurisdiction) and recognise it as having extraterritorial effect in their States.**

**3.5**

**Question 2.3 [maximum 3 marks]**

Describe **three** recent examples of developments in the Middle East region to reform domestic insolvency laws or to address international insolvency Issues.

The Gulf Cooperation Council countries have worked closely with the World Bank for about 40 years. **In what way? What's a recent development that has reformed domestic law or addressed international insolvency issues? You need to provide specifics that address the question posed.**

Comparative survey of insolvency systems in the Middle East and North Africa region launched in 2009 with the Hawkamah Institute for Corporate Governance, the World Bank, the OECD and INSOL International. **Elaboration would be beneficial.**

Bahrain adopted the Model Law on Cross-Border Insolvency in 2018 and the Dubai International Financial Centre adopted it in 2019.

### **QUESTION 3 (essay-type questions) [15 marks in total]**

#### **Question 3.1 [maximum 5 marks]**

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

With insolvency for individuals at the end of the insolvency administration, an individual is (usually) discharged and given a clean slate whereas a corporation is dissolved.

Individuals are (usually) allowed to retain some of their assets and earn a living during the administration of their estate to ensure that he/she can continue to live, and support his/her family; no such retention of assets are provided for in respect of companies.

Companies are (some recently) afforded in various jurisdictions business rescue proceedings a lifeline before liquidation.

**This answer displays a satisfactory understanding of the issues. To improve your responses, ensure they are commensurate with the mark allocation – while Q 3.1 asks for a brief note, it is for 5 marks.**

**3**

#### **Question 3.2 [maximum 5 marks]**

Write a brief note on the difficulties that may be encountered when dealing with insolvency law in a cross-border context relating to pertinent differences in the relevant systems.

Each legal system has their own set of domestic rules and insolvency laws. This includes how assets are secured, who gets priority, the strength of such priority (such as for employees) who can be considered insolvent, and the like. This is also intertwined with the domestic general laws, such as property laws, laws of security, etc. There is no 'one size fits all' in cross border insolvency, if a debtor is wound up in a country with assets in a foreign country, the approach of the foreign country could either be one of universality or territoriality.

**Further detail would be beneficial. For example, consideration of Westbrook's 9 key issues.**  
**2.5**

#### **Question 3.3 [maximum 5 marks]**

What multilateral steps have been taken in the 21<sup>st</sup> century to promote harmonisation of domestic insolvency laws? In your opinion, how much impact are these likely to have in addressing international insolvency issues? Include reasons for your opinion.

Developments through the UNCITRAL Practice Guide on Cross-Border Insolvency Cooperation and UNCIRAL Model Law on Cross-Border Insolvency have sought to harmonise the administration of a debtor's estate whose estate crosses borders. There have also been various regional co-operations such as ALI/III, JIN, and the Montevideo treaties to name a few.

**While adoption of the MLCBI may harmonise various domestic insolvency laws in so far as they address international insolvency issues, the question addresses more**

broadly the harmonisation of domestic insolvency laws in general. See the 'model' answer on this sub-question.

What is your opinion on how much impact these are likely to have in addressing international insolvency issues?

**QUESTION 4 (fact-based application-type question) [15 marks in total]**

Nadir Pty Ltd ("Nadir") is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd ("Apex") is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

**Question 4.1 [maximum 5 marks]**

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

The Cross-border Insolvency Act of Utopia would have incorporated UNCITRAL Model Law, this would approach the cross-border insolvency from a universality stand point. You should apply for recognition as the insolvency practitioner over the debtor in Utopia and request the stay of proceedings. If Nadair's Centre of Main Interest (COMI) is in Erewhon, then you should have the standing to act as the insolvency practitioner and be recognised as such over Nadair.

The question requires candidates to apply the relevant MLCBI articles to the facts provided in more detail than that above.

It would be beneficial to address the sought after stay.

2.5

**Question 4.2 [maximum 2 marks]**

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

- (a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard. –

(b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.

(a) As the matter is not yet heard, the insolvency practitioner can still seek recognition.

(b) This comes back to the COMI, if the COMI is Utopia, then the insolvency practitioner appointed per the wind-up order in Utopia stands, if it is Erewhon, then the advice remains the same.

**Apply the MLCBI provisions on concurrent insolvency proceedings (see Article 29)  
.5**

**Question 4.3 [maximum 8 marks]**

**NB: This question is not related to Questions 4.1 and 4.2**

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?
