QUESTION 4 (fact-based application-type question) [15 marks in total]

Nadir Pty Ltd (“Nadir”) is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd (“Apex”) is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

Question 4.1 [maximum 5 marks]

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

- UNCITRAL Model law does not require to be reciprocated – i.e. as it is adopted by Utopia, the Liquidator appointed in Nadir will be recognised.
- Cooperation of foreign and local court under UNCITRAL means the Liquidator in Nadir and Apex can try to enter into co-ordination agreement
- As per the Maxwell Communication Corporation case, action was brought in two different states.
- The Liquidator could:
 - Apply to the Court of Utopia to be recognised in the proceedings and provide directions on the basis monies are also owed in Utopia.
 - Does not appear to require the Company in Liquidation in Utopia.
- Would need the agreement between the Liquidator in Nadir and debtor in Utopia to be determine what they are putting before the Court for approval.
- Arbitration agreement to include details of:
 - What they seek to achieve.
 - Outcomes
 - Debts owed.

The question requires candidates to apply the relevant MLCBI articles to the facts provided in more detail than that above.

3.5

Question 4.2 [maximum 2 marks]

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

- (a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.
- (b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.
 - a) The difference is that the Liquidator appointment may be heard first and then the Liquidator in Nadir and Utopia would need to reach an agreement under the UNCITRAL Model law legislation.
 - b) Yes, instead of Apex and the Liquidator in Erewhon being parties to the agreement under UNCITRAL Model law, the Liquidators from Utopia and Nadir would be entering into an agreement to be heard by the Courts instead.

Refer to Article 29 on concurrent insolvency proceedings, under which the local proceedings in Utopia maintain pre-eminence over the foreign proceedings in Erewhon.

Question 4.3 [maximum 8 marks]

NB: This question is not related to Questions 4.1 and 4.2

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?

Country for incorporation – Australia.

Issue 1 – Recognition of proceedings where assets are located

Instruments to assist – UNCITRAL Model law would allow cooperation of foreign courts to recognise proceedings from Australia in State where assets are owned. This would assist in realising the assets for the benefit of creditors. Would require issuing proceedings in foreign court

Issue 2 – Creditors in places other than Australia

Domestic Australian Insolvency law does not discriminate between creditors locally versus internationally. The creditors would be able to prove for their claims in the Australian insolvency proceedings as if they were a local creditor.

Issue 3 – Directors outside of Australia

If the directors of the corporate debtor are registered at the Australian level, then the Australian insolvency laws provide for the ability to request information from them and their assistance with the matter regardless of location. If information is not provided by the directors the courts assistance may be required in Australia for an examination.

Issue 4 – Operating business in several states

Would require determining if there are operating subsidiaries or branches in other states and review of the entity will be required to determine solvency. If it is operating, a local insolvency representative may need to be appointed to preserve any value or to take control. This appointment would require the international recognition of the Australian insolvency proceedings and ability to show why it is necessary to have a local insolvency representative.
