QUESTION 2 (direct questions) [10 marks]

Question 2.1 [maximum 2 marks]

Explain what the term "international insolvency law" means.

International insolvency law is concerned with rules and regulations on insolvency proceedings and measures which cannot be applied and/or enforced without regard to any international aspects in each case.

More detail would have improved the mark awarded for this sub-question.
1.5

Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

Universality refers to the concept that insolvency proceedings should have global application when it comes to all of a debtor's assets and liabilities or that there should be a universal approach or universal law when it comes to insolvency proceedings relating to a single debtor.

Territoriality on the other hand is the opposite of universality. Proponents of this believe insolvency proceedings should be restricted to one territory only and encourage concurrent insolvency proceedings relating to the same debtor having assets and liabilities in different territories.

More detail would have improved the mark awarded for this sub-question.

For example, with universalism, (1) the jurisdictional aspect requires all States to agree on the place for the one set of insolvency proceedings in respect of the debtor and, to be successful, (2) recognition and effect requires that other States recognise that one set insolvency proceedings and recognise it as having extraterritorial effect in their States.

3

Question 2.3 [maximum 3 marks]

In the Middle East , some of the recent developments include;

1. Some countries have been working closely with the World Bank to adopt uniform practices on insolvency. **what impact did this have on reforming domestic insolvency laws or addressing international insolvency Issues in the Middle East?**

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

When it come to insolvency, objectives differ for Individuals and Corporations as follows;

- a) For individuals, the objective is to protect the Debtor against being harassed by the creditors. It is also important to try and enable the debtor to be able to make a fresh start after insolvency proceedings.
- b) For corporations, the objective is to preserve the business or parts of it and to ensure that persons responsible in their personal capacity are held responsibly.

There is some scope to elaborate.

3.5

Question 3.2 [maximum 5 marks]

Write a brief note on the difficulties that may be encountered when dealing with insolvency law in a cross-border context relating to pertinent differences in the relevant systems.

When it comes to dealing with Insolvency law in a cross-border context, some of the pertinent differenced include the definition of insolvency. Each territory has its own definition of insolvency and his proves to be a challenge when it comes to cross border insolvency. In some Jurisdictions for example, priority what qualifies as insolvency may not necessarily be insolvency in another Jurisdiction. This also has an effect to when it comes to how priority creditors will be treated.

Another major difference in cross border insolvency is the challenges of diferent legal systems. Whereas the laws may be similar in common law countries for example, this would be very different in civil law countries. As a result, other creditors in other jurisdictions may e an advantage compared to creditors in another Jurisdiction.

Further detail would be beneficial. For example, consideration of Westbrook's 9 key issues.

Question 3.3 [maximum 5 marks]

What multilateral steps have been taken in the 21st century to promote harmonisation of domestic insolvency laws? In your opinion, how much impact are these likely to have in addressing international insolvency issues? Include reasons for your opinion.

The Multilateral steps taken to promote hamonisation of domestic insolvency laws include the making of the Legislative Guide on insolvency law in 2004 which aims to be a reference for countries when making insolvency laws or reviewing and/or amending already exiting national insolvency laws. The World bank has also introduced the guidelines on the regulation of

Insolvency while the European Union came up with a report on Europe's Capital markets which includes a chapter on Convergence of insolvency and restructuring proceedings in the European Union.

The above will have a big impact on addressing international insolvency issues because they deal with convergence of practices in regions when dealing with cross border insolvency.

There is scope to elaborate on 'socio cultural matters' and consider political pressure, foreign investor pressure and/or loan conditions.

QUESTION 4 (fact-based application-type question) [15 marks in total]

Nadir Pty Ltd (Nadir) is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd (Apex) is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

Question 4.1 [maximum 5 marks]

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

The relevance of the Cross-border Insolvency Act of Utopia is that it gives effect and recognises concurrent insolvency proceedings in another Jurisdiction where the Debtor in questions has assets and liabilities.

In light of the above, it simply means that the Erewhon Liquidator can pursue Nadir concurrently in Utopia and does not need to put a stop to Apex Court action against Nadir in Utopia.

The question requires candidates to apply the relevant MLCBI articles to the facts provided in more detail than that above.

If the requirements of the CBIA are met, then the Utopian court can recognise the foreign winding-up order and the appointment of the liquidator. The liquidator can also ask for relief by way of a local stay in Utopia of court proceedings by Apex to recover its debt.

3

Question 4.2 [maximum 2 marks]

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

(a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.
No.

(b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.

Yes, because a winding up order may have effect in the other Jurisdiction as well and so the best solution for Erewhon Liquidator would be to join the proceedings as creditor

Apply the MLCBI provisions on concurrent insolvency proceedings (see Article 29)

Question 4.3 [maximum 8 marks]
