QUESTION 2 (direct questions) [10 marks]

Question 2.1 [maximum 2 marks]

Explain what the term "international insolvency law" means.

The term "international insolvency law" means the provisions (binding or not) governing international relations between private parties (private international law) or States (public international law).

More detail would have improved the mark awarded for this sub-question.

1

Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

Universality implies in the adoption of a single insolvency proceeding worldwide, thus, only one forum would hold jurisdiction over all debtor's assets and debts. On the other hand, Territoriality implies in the commencement of insolvency proceedings in each State where the Debtor holds assets, but the jurisdiction and effects of each proceeding would apply only within the respective territory limitations.

Also, note, these theories involve two key aspects of private international law - recognition and effect as well as jurisdiction:

For example, with universalism, (1) the jurisdictional aspect requires all States to agree on the place for the one set of insolvency proceedings in respect of the debtor and, to be successful, (2) recognition and effect requires that other States recognise that one set insolvency proceedings and recognise it as having extraterritorial effect in their States.

3.5

Question 2.3 [maximum 3 marks]

Describe **three** recent examples of developments in the Middle East region to reform domestic insolvency laws or to address international insolvency Issues.

The joint work of the Gulf Cooperation Council Countries with the World Bank; the development of a comparative survey of insolvency systems in the Middle East and North Africa; **what impact did this have on reforming domestic insolvency laws or addressing international insolvency Issues in the Middle East?**

reform of the domestic insolvency laws by a few States and the adoption of Model Law on Cross Border Insolvency. **More detail would have improved the mark awarded for this sub-question.**

QUESTION 3 (essay-type questions) [15 marks in total]

Question 3.1 [maximum 5 marks]

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

Insolvency for individuals differs from corporation insolvency especially because of the nature of debtors involved, since the first one relates to natural persons whilst the second to an artificial persona. Among these differences one can mention (i) the impossibility of dissolution of an individual; and (ii) the possibility of an individual to be discharged of its indebtedness. Despite these differences, there are other insolvency provisions that may apply to both scenarios.

There is scope to elaborate

3.5

Question 3.2 [maximum 5 marks]

Write a brief note on the difficulties that may be encountered when dealing with insolvency law in a cross-border context relating to pertinent differences in the relevant systems.

Many difficulties may be encountered when dealing with cross-border insolvency, especially because there is not a single set of provisions that apply to all States and a global court acting on the matter. Thus, as difficulties that may be encountered, one can mention: (i) adoption of a Civil Law or English Law legal system; (ii) different (and even conflicting) procedural and substantive legal provisions adopted by States; (iii) differences in policies (pro-debtor or pro-creditor).

Further detail would be beneficial. For example, consideration of Westbrook's 9 key issues.

3

Question 3.3 [maximum 5 marks]

What multilateral steps have been taken in the 21st century to promote harmonisation of domestic insolvency laws? In your opinion, how much impact are these likely to have in addressing international insolvency issues? Include reasons for your opinion.

UNCITRAL, World Bank guidelines and the submission of States to treaties and conventions concerning cross-border insolvency (v.g. EIR Recast) can be considered steps undertaken in the 21st century to promote harmonisation of domestic insolvency laws. Despite not being obliged to submit to the aforementioned instruments, in view of the market demands, there is a growing number of adhering States that are committed to the standardization of cross-border insolvency provisions.

There is scope to consider political pressure, foreign investor pressure and/or loan conditions.

QUESTION 4 (fact-based application-type question) [15 marks in total]

Nadir Pty Ltd (Nadir) is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd (Apex) is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

Question 4.1 [maximum 5 marks]

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

Utopia incorporated the terms of UNCITRAL to its Insolvency Act (domestic law), hence the cooperation to Erewhon's court is mandatory. Thus, the liquidator could request the stay of

the proceeding pending before the Utopia Court, recognition of the wind-up filed before the Erewhon's court and bind all creditors within the Utopia Jurisdiction. To do so, it would be necessary to confirm whether Erewhon's court would have jurisdiction to decide on the wind-up matter (info pending).

There is some scope to elaborate

5

Question 4.2 [maximum 2 marks]

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

(a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.

Yes, because until the matter is heard one cannot consider that an insolvency proceeding is pending and, therefore, the provisions of UNCITRAL would not apply.

(b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.

Yes, because Erewhon may not adopt a system based in the cooperation between foreign jurisdictions (this information is pending in the scenario provided above).

Apply the MLCBI provisions on concurrent insolvency proceedings (see Article 29)

Question 4.3 [maximum 8 marks]

NB: This question is not related to Questions 4.1 and 4.2

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?

The country selected is Germany. The four key international insolvency issues faced by the representative are: **(i)** definition of the center of main interest, since the company has directors in several States; **(ii)** other proceedings against the debtor might have been filed before other jurisdictions and could impair the insolvency proceeding; **(iii)** other State's might not recognize the insolvency proceeding, thus it may not bind the creditors outside Australian territory; and **(iv)** other State's might not recognize the jurisdiction of Australia's court over the debtor's assets. In Germany the domestic provisions about insolvency can

be found in the InSO, the of the EIR Recast should also be observed. UNCITRAL recommendations and World Bank guidelines may also apply to the matter.

For another approach that is closely applied to the facts, see the 'Model' Answer for four key international insolvency issues raised by the facts and facing the insolvency representative in this scenario.
