QUESTION 2 (direct questions) [10 marks]

Question 2.1 [maximum 2 marks]

Explain what the term "international insolvency law" means.

International insolvency law means that, in an insolvency proceeding, there are elements of the debtor's estate and dealings that fall within more than one legal jurisdiction so that a single legal system cannot be applied exclusively without taking into consideration the elements of the case in the other jurisdiction(s).

There is scope to elaborate

1.5

Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

Universalism is the concept of a single insolvency proceeding that captures all of the debtor's assets and liabilities worldwide. There would be only one insolvency regime applied, most likely the system used in the country of the debtor's main centre of interests. The office holder should be able to deal with all domestic and international assets and all worldwide creditors should be able to claim in the proceeding.

Territoriality, on the other hand, proposes to ringfence the assets and liabilities of the debtor into the territories within which they fall. So local creditors can take part in local proceedings which aim to recover local assets but any assets & liabilities outside that territory will be excluded and may only be dealt with under a separate proceeding, if at all.

There is scope to elaborate with respect to recognition and effect in that for example, with universalism, recognition and effect requires that other States recognise that one

set insolvency proceedings (that all agreed is the appropriate jurisdiction) and recognise it as having extraterritorial effect in their States.

Question 2.3 [maximum 3 marks]

Describe **three** recent examples of developments in the Middle East region to reform domestic insolvency laws or to address international insolvency Issues.

The UAE reformed their domestic insolvency laws in 2016 and 2019 by introducing a framework to help distressed companies use rescue mechanisms to avoid bankruptcy and a law to regulate personal insolvency and protect the debtor.

Saudi Arabia approved a new bankruptcy law in 2018, KSA Bankruptcy Law, which sets out 5 specific goals the procedures aim to achieve, including protection of the debtor and consideration of creditor's right.

In 2018 Bahrain adopted the Modal Law on Cross-Border Insolvency and Dubai followed suit in 2019.

Question 3.1 [maximum 5 marks]

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

The main differences between objectives for individuals and corporations are:

- to protect individuals from creditor harassment and enable a fresh start for the debtor whereas, for corporations, it is to preserve the business but not necessarily the company,
- some systems allow for specific assets of an individual to be exempt from the proceedings but there are no corporation owned assets exempted,
- individual debtors may be required to make reasonable & affordable contributions to the estate to help reduce the indebtedness, and
- any persons of a corporation who are found to have abused their position may have a personal liability imposed on them.

QUESTION 4 (fact-based application-type question) [15 marks in total]

Nadir Pty Ltd (Nadir) is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd (Apex) is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

Question 4.1 [maximum 5 marks]

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

Dear Erewhon Liquidator,

Nadir Pty Ltd - in liquidation ("the liquidation")

As Utopia have adopted the UNCITRAL Model Law on Cross-border Insolvency (“the Law”) you may apply to the relevant competent court or authority of Utopia to have the liquidation recognised as a foreign proceeding.

The liquidation falls under the definition of a “foreign proceeding” in the Law and you as liquidator would be defined as the “foreign representative”, both requirements of having the liquidation recognised. Article 15 of the Law sets out the requirements of the application.

If Erewhon can be established as Nadir’s centre of main interests then the liquidation will be recognised as the main proceedings, the effects of which would be to stay Apex’s court action, except to the extent that Apex requires the action to preserve their right to claim against the debtor.

If Erewhon is not Nadir’s centre of main interest then the liquidation will be recognised as a non-main foreign proceeding and you may apply to the relevant competent court or authority for appropriate relief including the staying of individual actions against the debtor.

Yours faithfully

Question 4.2 [maximum 2 marks]

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

- (a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.

- (b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.
 - (a) The court may hear the proceedings and issue a winding-up order but only if the debtor has assets in Utopia and the winding up would be restricted to the Utopian assets.
 - (b) Where a winding-up order had already been granted in Utopia then the proceedings would be concurrent and the court would expect cooperation and coordination of the courts and the representatives and stay of proceedings & relief of execution will not apply.

Apply the MLCBI provisions on concurrent insolvency proceedings (see Article 29)

Question 4.3 [maximum 8 marks]

NB: This question is not related to Questions 4.1 and 4.2

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?
