Question 2.1 [maximum 3 marks]

Briefly indicate the historical roots of the various insolvency law systems to be found in African jurisdictions.

[The historical roots of the various African jurisdictions can be traced to the colonial masters of the countries the countries in question. Countries that were colonised by the United Kingdom have the historical roots of their insolvency law in the Common Law. Other countries such as Angola and Mozambique have a civil law tradition based on Portuguese law. French speaking countries have French law roots while some countries such as Namibia, Zimbabwe and South Africa have a mis Proof reading is required of Roma-Dutch law and Common law.]

Question 2.2 [maximum 3 marks]

Indicate what important events and / or developments gave rise to some insolvency law reform in Eastern Asia and provide two examples of such reform initiatives.

[The Asian financial crisis of 1998 affected Indonesia and Thailand greatly. Thailand devalued its currency against the United States dollar, leading to a deep financial crisis affecting property markets and balance of payments. This crisis led to Thailand overhauling its insolvency laws. Secondly, in 2020 Singapore came up with a unified law on insolvency, becoming a major role player in the region. The Insolvency, Restructuring and Dissolution Act 2018 (IRDA) has been hailed as a positive move by most observers.]

Question 2.3 [maximum 4 marks]

Briefly indicate the various initiatives undertaken to assist with the resolution of international insolvency issues between North America and Canada and the success or otherwise of these initiatives.

[The American Law Institute Transnational Insolvency Project has developed the ALI NAFTA Guidelines Applicable to Court to Court Communications in Cross Border Cases. This deals with international insolvencies involving the United States of America, Canada and Mexico. The Principles are complimentary to the model law on cross border insolvency. This means that the United States of America, Canada and Mexico can rely on the model law and the Principles. There is scope to elaborate. While the question says 'briefly' it is for 4 marks. There was scope to discuss, for example, *Re Nortel Networks Corporation* [2016] ONCA 332; *In re Nortel Networks, Inc.*, 669 F.3d 128

QUESTION 3 (essay-type questions) [15 marks in total]

Question 3.1 [maximum 5 marks]

It is said that one of the difficulties in designing a proper cross-border insolvency dispensation is the fact that domestic insolvency laws and approaches towards insolvency in various jurisdictions are not the same and in fact sometimes differ vastly. Discuss the possible historical reasons for the difference in approaches regarding the treatment of voidable dispositions, given the way such rules developed in English law and civil law jurisdictions respectively. In your answer you must provide a context or

framework for the treatment of these rules in insolvency systems and indicate why these rules are important in insolvency.

[T In civil law history the Actio Pauliana is a remedy that is available to protect creditors from fraudulent legal transactions, especially those that reduce the creditor's estate through transfer to third parties. On the other hand, the purpose of the Act of Elizabeth is to provide a way for creditors to reverse asset transfers of their debtors when the transfers were done fraudulently. The aim of the action is to return the creditor to the status before the voidable disposition. These rules are important to insolvency because they help protect the creditor from loss through fraudulent means.]

There is scope to elaborate. While the question says 'briefly' it is for 5 marks. Elaboration was needed, for example, to provide a more detailed context or framework for the treatment of these rules in insolvency systems and to elaborate upon the importance of the rules.

Question 3.2 [maximum 5 marks]

A Dutch commentator on international insolvency law defines international insolvency law as that part of the law that:

"[i]s commonly described in international literature as a body of rules concerning certain insolvency proceedings or measures, which cannot be fully enforced, because the applicable law cannot be executed immediately and exclusively without consideration being given to the international aspect of a given case."

However, the author concedes that this definition has limitations. Briefly discuss the reasons why the definition is perceived to have limitations.

[This definition has limitations because it is not just the international aspect of a case that is important and must be taken into consideration but the legal systems of the countries involved. In the absence of a proper legal system, there is little that can be done. It is important to note and state that international insolvency law can involve various international aspects especially in relation to a case, but ultimately it is the legal systems of the states in which the insolvency is taking place, or countries in which the insolvent has assets whose law matters.]

There is scope to elaborate. While the question says 'briefly' it is for 5 marks.

3.5

Question 3.3 [maximum 5 marks]

Briefly discuss treaties or conventions as a source for cross-border insolvency law. In your answer you should also indicate if these are viewed as a successful way in establishing such rules by providing examples in this regard.

[Treaties or connections are a source of cross border insolvency. However, the treaties or conventions have to be ratified or acceded to by state parties. Some states also require ratification because the treaties once acceded to do not automatically become part of domestic legislation. Not a lot of success has been achieved by treaties or conventions. Such conventions as the Istanbul Convention, Council of Europe Treaty Series No. 136 did not achieve much success as it was not ratified by enough States for it to enter into force. More success has been achieved by the European Union Insolvency regulation (recast)]

QUESTION 4 (fact-based application-type question) [15 marks in total]

Flor Prim Pty Ltd (FPPL) is a company incorporated with its head office and significant operations in Encanto as well as being registered as a foreign company in Asgard, where it also carries on business. FPPL therefore carries on business in more than one State. Lobo Lending Ltd (Lobo) is incorporated and has its head office in Asgard.

FPPL is managing to meet its debts as they fall due in Encanto. However, due to various staffing issues combined with market turndown in Asgard, FPPL is struggling financially in Asgard. FPPL has fallen behind with payments due and owing to Lobo. FPPL's CEO approaches Lobo to discuss possible informal payment arrangements.

If you require additional information to answer these questions, briefly state what it is and why it is relevant.

Question 4.1 [Maximum 5 marks]

What are the main differences between "formal" insolvency proceedings and "informal" insolvency arrangements? What key advantages and disadvantages should Lobo consider regarding any informal out-of-court workout arrangement it could enter with FPPL, compared with its formal debt recovery options?

[Formal insolvency are initiated under and governed by insolvency law and provisions within the law whereas non formal or informal insolvency are not always regulated by the insolvency law and will involve negotiations between the debtor and some or all of its creditors. The main similarity therefore is that both under formal insolvency and informal insolvency there has to be an existence of an insolvency law. The difference between the two is that under inform

insolvency there is a possibility of there being voluntary negotiations unlike under a formal insolvency, especially if it involves liquidation, reorganisation or business rescue.

Lobo should take advantage of the fact that in Encanto FPPL is doing well and if they enter into an arrangement, the company would be in a position to settle its liabilities as and when they will fall due.

I would require further information on the legal systems of Encanto and Asgard as they relate to insolvency]

It would be beneficial to also consider matters such as the absence of moratorium and the inability to bind dissenting creditors in an informal workout. Advantages to consider are lower costs and privacy issues. Also, it is made more complex by FPPL carrying on business in more than one State because it is more complicated and costly to monitor the other creditors.

2

Question 4.2 [Maximum 5 marks]

Assume that instead of the scenario described above, Lobo obtained a formal court order against FPPL for a court-supervised insolvency proceeding in Asgard. The Asgardian insolvency representative then discovered there was already a concurrent insolvency proceeding commenced against FPPL in Encanto. Detail difficulties that may arise for the insolvency representative pertaining to co-operation and co-ordination and the international insolvency instruments that have been developed to assist with respect to those difficulties. In your answer make sure to comment as to whether the development of these international insolvency instruments is important and why, or why not.

[Difficulties that may arise are whether or not Asgard and Encanto both have rules regarding cooperation among courts in different countries. It is therefore important that the countries have developed international insolvency instruments that support cooperation, failing which parties to cross border insolvency disputes will not be in a position to assert their rights.]

Elaboration is warranted.

Question 4.3 [Maximum 5 marks]

Assume that instead of the hypothetical facts mentioned above, FPPL is an incorporated company with offices in the UK, and throughout Europe and other non-European countries. Lobo is its major creditor and is incorporated in a country in Europe. An insolvency proceeding against FPPL was opened in the UK by a minor creditor on 30 June 2022. A month later, Lobo was considering also opening proceedings in another country in Europe. Discuss whether the European Insolvency

Regulation Recast would apply with respect to the UK commenced insolvency proceedings, and the consequences of same. In answering this question set out what further information, if any, you might need.

[The European Insolvency Regulation Recast would not apply because the insolvency proceedings were commenced after the transition period which period ended on 31st December 2020]

There is scope to elaborate. While the question says 'briefly' it is for 5 marks. By way of example, it is important that you need to ascertain whether the MLCBI has been adopted by relevant countries.
