QUESTION 3 (essay-type questions) [15 marks in total]

***It is said that one of the difficulties in designing a proper cross-border insolvency dispensation is the fact that domestic insolvency laws and approaches towards insolvency in various jurisdictions are not the same and in fact sometimes differ vastly. Question 3.2 [maximum 5 marks]

**A Dutch commentator on international insolvency law defines international insolvency law as that part of the law that:**

***"[i]s commonly described in international literature as a body of rules concerning certain insolvency proceedings or measures, which cannot be fully enforced, because the applicable law cannot be executed immediately and exclusively without consideration being given to the international aspect of a given case."***

**However, the author concedes that this definition has limitations. Briefly discuss the reasons why the definition is perceived to have limitations.**

*[This is owing to the fact that, although the definition makes reference to cross border insolvency, it is limited in the sense that the insolvency proceedings are distinct in each state and a need to adopt a particular model law before it can be enforced in another state. Application is limited to the national insolvency laws of an affected legal system. In a nut shell, insolvency proceedings are not exclusive or of immediate application, consideration has to be given to the domestic applicable laws of each state and whether or not it has adopted among others the insolvency treaties such as the UNICITRAL Model Laws on Cross border Insolvency.]*

There is scope to elaborate. While the question says 'briefly' it is for 5 marks.

QUESTION 4 (fact-based application-type question) [15 marks in total]

**Flor Prim Pty Ltd (FPPL) is a company incorporated with its head office and significant operations in Encanto as well as being registered as a foreign company in Asgard,**

**where it also carries on business. FPPL therefore carries on business in more than one State. Lobo Lending Ltd (Lobo) is incorporated and has its head office in Asgard.**

**FPPL is managing to meet its debts as they fall due in Encanto. However, due to various staffing issues combined with market turndown in Asgard, FPPL is struggling financially in Asgard. FPPL has fallen behind with payments due and owing to Lobo. FPPL's CEO approaches Lobo to discuss possible informal payment arrangements.**

**If you require additional information to answer these questions, briefly state what it is and why it is relevant.**

**FPPL's CEO could put up a proposal to have the debt paid in instalments for slightly a longer period and by finding ways to stop the interest if any from accumulating. Once this agreeable to Lobo, the debt and payment plan can be restructured with the aid of the banking and commercial sectors such as the Bank were FPPL's holds its account can help restructure the debt and payment plan by incorporating the informal terms as agreed by the two parties. Further, to ensure that all parties are compliant and adhere to the new restructured payment plan, it can now be drafted in a way that it becomes binding and enforceable against each party.**

Question 4.1 [Maximum 5 marks]

**What are the main differences between "formal" insolvency proceedings and "informal" insolvency arrangements? What key advantages and disadvantages should Lobo consider regarding any informal out-of-court workout arrangement it could enter with FPPL, compared with its formal debt recovery options?**

*[The main differences between formal insolvency proceedings (formal) and informal insolvency proceedings (informal) are that, formal proceedings provide for a moratorium period which period creditors cannot enforce their rights against the company and this works as an automatic stay until such a time the company is stable and, in a position, to start paying its creditors, informal proceedings do not have a provision for a moratorium period. Secondly, formal proceedings create a binding agreement between the parties involved whereas with informal proceedings, there is no way of binding dissenting creditors to any agreement reached.*

*The key advantages that Lobo should consider are that;*

- 1. The procedure will be less costly and;*
- 2. They will be no need for publicity as such, the public will have no knowledge of its current financial distress.*

*The disadvantages to be considered by Lobo are that;*

1. *It will have no moratorium period put in place therefore, creditors such as FPPL itself can still enforce their right at any given time if its of the view that the informal procedure is no longer favourable to it,*
2. *2. The agreement reached between the (Lobo and FPPL is not legally binding.)*

Also, it is made more complex by FPPL carrying on business in more than one State because it is more complicated and costly to monitor the other creditors.

4.5

Question 4.2 [Maximum 5 marks]

***Assume that instead of the scenario described above, Lobo obtained a formal court order against FPPL for a court-supervised insolvency proceeding in Asgard. The Asgardian insolvency representative then discovered there was already a concurrent insolvency proceeding commenced against FPPL in Encanto. Detail difficulties that may arise for the insolvency representative pertaining to co-operation and co-ordination and the international insolvency instruments that have been developed to assist with respect to those difficulties. In your answer make sure to comment as to whether the development of these international insolvency instruments is important and why, or why not.***

*[The difficulties that may arise would be that, each of these states have different applicable laws relating to the security of creditors in insolvency proceedings. Such that the list of secured creditors could differ and this also possess a huge challenge as secured creditors in each state hold priority thus to determine which of these creditors will be priority and paid first will be difficult and tasking. The difference in definition of key terms may be problematic.*

*However, with the development of the UNCITRAL Model Law on Secured Transaction, it would provide the representatives of both countries with a helpful guideline on how the respective secured creditors can be paid and what order will be considered with regards priority to payments. The instrument referred to is of importance with regards international insolvency in that it attempts to harmonise the rules relating to security interests globally.]*

It is good that you raise the MLCBI. Reference to article 27 is warranted. Reference to additional international insolvency instruments is also warranted.

3.5

Question 4.3 [Maximum 5 marks]

***Assume that instead of the hypothetical facts mentioned above, FPPL is an incorporated company with offices in the UK, and throughout Europe and other non-European countries. Lobo is its major creditor and is incorporated in a country in Europe. An insolvency proceeding against FPPL was opened in the UK by a minor creditor on 30 June 2022. A month later, Lobo was considering also opening***

***proceedings in another country in Europe. Discuss whether the European Insolvency Regulation Recast would apply with respect to the UK commenced insolvency proceedings, and the consequences of same. In answering this question set out what further information, if any, you might need.***

*[The European Insolvency Regulations (Recast) which provides for insolvency procedures for all member states of the European Union will not apply with regards to the UK commenced insolvency proceedings due to the fact that the UK is no longer a member of the European Union following Brexit, therefore, the consequence of this is that the UK will have to go by way of the UNICITRAL model laws on insolvency proceeding in order to enforce the same.]*

There is scope to elaborate. While the question says 'briefly' it is for 5 marks.
