QUESTION 3 (essay-type questions) [15 marks in total]

Question 3.1 [maximum 5 marks]

***It is said that one of the difficulties in designing a proper cross-border insolvency dispensation is the fact that domestic insolvency laws and approaches towards insolvency in various jurisdictions are not the same and in fact sometimes differ vastly. Discuss the possible historical reasons for the difference in approaches regarding the treatment of voidable dispositions, given the way such rules developed in English law and civil law jurisdictions respectively. In your answer you must provide a context or framework for the treatment of these rules in insolvency systems and indicate why these rules are important in insolvency.***

***The historical basis for voidable dispositions is different for English law and civil law jurisdictions***

- ***Within English law the Act of Elizabeth of 1570 forms the basis***
- ***In civil law systems, the action Pauliana is the basis***

***Voidable disposition rules are important in insolvency to***

- ***Disallow unlawful preferential treatment of one or a class of creditors***
- ***Prevent fraudulent transfer of assets by a debtor company or its shareholders to the detriment of creditors***

There is scope to elaborate. While the question says 'briefly' it is for 5 marks.

2.5

Question 3.2 [maximum 5 marks]

***A Dutch commentator on international insolvency law defines international insolvency law as that part of the law that:***

***"[i]s commonly described in international literature as a body of rules concerning certain insolvency proceedings or measures, which cannot be fully enforced, because the applicable law cannot be executed immediately and exclusively without consideration being given to the international aspect of a given case."***

***However, the author concedes that this definition has limitations. Briefly discuss the reasons why the definition is perceived to have limitations.***

***This definition is considered to have limitations because it rests on the existence of national insolvency laws. A globalised or common market with free movement of goods, capital, and labour requires a standardised overarching framework of insolvency laws. Without coordination and cooperation amongst the courts of the various countries involved in a cross border insolvency situation, a timely and harmonious resolution will be likely difficult to achieve.***

There is scope to elaborate. While the question says 'briefly' it is for 5 marks.

4

Question 3.3 [maximum 5 marks]

**Briefly discuss treaties or conventions as a source for cross-border insolvency law. In your answer you should also indicate if these are viewed as a successful way in establishing such rules by providing examples in this regard.**

QUESTION 4 (fact-based application-type question) [15 marks in total]

***Flor Prim Pty Ltd (FPPL) is a company incorporated with its head office and significant operations in Encanto as well as being registered as a foreign company in Asgard, where it also carries on business. FPPL therefore carries on business in more than one State. Lobo Lending Ltd (Lobo) is incorporated and has its head office in Asgard.***

***FPPL is managing to meet its debts as they fall due in Encanto. However, due to various staffing issues combined with market turndown in Asgard, FPPL is struggling financially in Asgard. FPPL has fallen behind with payments due and owing to Lobo. FPPL's CEO approaches Lobo to discuss possible informal payment arrangements.***

***If you require additional information to answer these questions, briefly state what it is and why it is relevant.***

Question 4.1 [Maximum 5 marks]

***What are the main differences between "formal" insolvency proceedings and "informal" insolvency arrangements? What key advantages and disadvantages should Lobo consider regarding any informal out-of-court workout arrangement it could enter with FPPL, compared with its formal debt recovery options?***

*The main difference between formal procedures and informal insolvency arrangements is:*

- *Formal insolvency proceedings both begin and are carried out under the aegis of the relevant insolvency law. The proceedings may begin by way of a court order.*
- *Informal insolvency processes are generally voluntary out-of-court negotiations between a debtor and its creditors which are not necessarily governed by an insolvency law. However, informal negotiations often rely on the presence of a formal process as a backup plan, which helps influence and guide the informal negotiations.*

*The key advantages of an informal out-of-court arrangement for Lobo as a creditor are*

- *Less costly than a formal court-monitored process*
- *Absence of a statutory moratorium which would otherwise prevent Lobo from starting an enforcement proceedings*
- *There is less negative publicity that FPPL is under duress, which may help preserve value of the enterprise*

*The key disadvantages for Lobo would be*

- *In the absence of a consensus, bind dissenting creditors to an agreement reached*
- *Other creditors may commence enforcement or other proceedings against FPPL, in the absence of a statutory moratorium*
- *An informal agreement reached between Lobo and FPPL in Asgard may not be recognised or enforceable in Encanto, where FPPL's HQ is situated.*

5

Question 4.2 [Maximum 5 marks]

***Assume that instead of the scenario described above, Lobo obtained a formal court order against FPPL for a court-supervised insolvency proceeding in Asgard. The Asgardian insolvency representative then discovered there was already a concurrent insolvency proceeding commenced against FPPL in Encanto. Detail difficulties that may arise for the insolvency representative pertaining to co-operation and co-ordination and the international insolvency instruments that have been developed to assist with respect to those difficulties. In your answer make sure to comment as to whether the development of these international insolvency instruments is important and why, or why not.***

*A cross border insolvency case with concurrent proceedings in both Asgard and Encanto may create difficulties in the form of*

- *Each state applying its own laws, with little or no recognition of the other state's proceedings or judgements, bringing possible conflicts of law into play*
- *The difficulties would be more pronounced if the laws of Asgard and Encanto have differences in their approaches to balancing or prioritising interests of the various stakeholders - the debtor, the creditors, labour, tax claims, etc.*

*International insolvency instruments and frameworks that have been created to assist cross-border insolvencies include*

- *The World Bank's Principles for Effective Insolvency and Creditor/Debtor Regimes*
- *UNCITRAL Model Law on Cross Border Insolvency*
- *Various treaties and conventions*

*The development of these international insolvency instruments is important to provide a template for states with different insolvency laws to follow for the recognition and enforcement of foreign insolvency proceedings, so that a harmonious resolution of cross-border insolvency cases may be achieved.*

There is scope to elaborate. While the question says 'briefly' it is for 5 marks.

3.5

Question 4.3 [Maximum 5 marks]

***Assume that instead of the hypothetical facts mentioned above, FPPL is an incorporated company with offices in the UK, and throughout Europe and other non-European countries. Lobo is its major creditor and is incorporated in a country in Europe. An insolvency proceeding against FPPL was opened in the UK by a minor creditor on 30 June 2022. A month later, Lobo was considering also opening proceedings in another country in Europe. Discuss whether the European Insolvency Regulation Recast would apply with respect to the UK commenced insolvency proceedings, and the consequences of same. In answering this question set out what further information, if any, you might need.***

*The European Insolvency Regulation Recast would not apply In this case with respect to the UK commenced insolvency proceedings, since post 31 December 2020 the UK is no longer considered a EU member state for this purpose.*

*As a consequence, the UK insolvency proceeding will not be automatically recognised in the EU.*

*Therefore, in this case, it may be necessary to open concurrent proceedings in the UK and the other European country. This would in turn depend on whether the other European country has adopted the Model Law, and if not, whether that state's domestic laws allow the opening of parallel insolvency proceedings and/or recognition of the UK insolvency proceeding.*

*We would also need information on the COMI of FPPL, and the governing law of Lobo's debt instrument.*
