[International insolvency law refers to the laws that will apply in an insolvency proceedings that involves elements relating to more than one country.]

Elaboration is warranted.

1.5

Question 2.2 [maximum 5 marks]

Differentiate between the concepts of universality and territoriality in cross-border insolvency.

Universality is based on the credo that insolvency proceedings be governed by the laws of a single country or legal system that applies universally to a insolvency proceedings involving an insolvent debtor. Conversely, territoriality postulates that distinct insolvency proceedings may be maintained in the various countries to exclusively address insolvency matters that arise within the territorial borders of each of those countries. Universalism advocates the application of the laws of a single legal system, while territoriality contemplates that the laws that will apply to a insolvency proceedings will be as many as the distinct countries to which the insolvency proceedings relate.

There is scope to elaborate with respect to recognition and effect in that for example, with universalism, recognition and effect requires that other States recognise that one set insolvency proceedings (that all agreed is the appropriate jurisdiction) and recognise it as having extraterritorial effect in their States.

QUESTION 3 (essay-type questions) [15 marks in total]

Question 3.1 [maximum 5 marks]

Write a brief note on the differences regarding the objectives of insolvency for individuals and corporations.

For individuals, the objective of insolvency is geared towards shielding individuals from their creditors, while providing a pathway for reinstating them to a better financial position. For corporations, insolvency proceedings aim to resolve the distress of ailing companies, dissolve the companies where necessary and sanction persons who have engineered such insolvency, where required.

Question 3.3 [maximum 5 marks]

What multilateral steps have been taken in the 21st century to promote harmonisation of domestic insolvency laws? In your opinion, how much impact are these likely to have in addressing international insolvency issues? Include reasons for your opinion.

The multilateral steps that have been taken in the 21st century to promote uniformity of insolvency laws include the issuance of the UNCITRAL Legislative Guide on Insolvency and the World Bank's Principles for Effective Insolvency and Creditor/Debtor Regimes, as revised from time to time. In my opinion, these have recorded great success in resolving critical issues in international insolvency as a result of their adoption.

There is scope to consider political pressure, foreign investor pressure and/or loan conditions.

QUESTION 4 (fact-based application-type question) [15 marks in total]

Nadir Pty Ltd (Nadir) is a company registered in Utopia. Originally it was incorporated in the neighbouring country of Erewhon before moving its registration and head office to Utopia one month ago. Apex Pty Ltd (Apex) is incorporated and has its head office in Erewhon. Apex and Nadir enter into a contract by exchange of emails between their head offices for Apex to supply goods to Nadir in Utopia. Nadir has failed to pay for the goods which have been delivered in accordance with the contract. Apex issues

court proceedings against Nadir in Utopia for monies owing for the goods sold and delivered.

Meanwhile, Nadir also owes monies to creditors in Erewhon. One Erewhon creditor obtains a court winding-up order against Nadir in Erewhon and a liquidator is also appointed by that court.

If you require additional information to answer the questions that follow, briefly state what information it is you require and why it is relevant.

Question 4.1 [maximum 5 marks]

Assume the UNCITRAL Model Law on Cross-border Insolvency has been adopted by Utopia without modification, except as required to domesticate it. For example, the Cross-border Insolvency Act of Utopia names its local laws relating to insolvency and its competent court under the Act. The Erewhon liquidator's investigations detect that Apex is suing Nadir in Utopia. The liquidator would like to stop Apex court action against Nadir in Utopia. Advise the Erewhon liquidator on the potential relevance of the Cross-border Insolvency Act of Utopia.

In this circumstance, the Cross-border Insolvency Act of Utopia The "Act") could be critical to the Erewhon liquidator achieving their goal of having the court proceedings in Utopia stayed in view of the ongoing insolvency proceedings in Erewhon, as the Act mandates cooperation and communication of the Utopian courts with courts in foreign states on insolvency matters. Specifically, the Act provides for stay of commencement or continuation of piecemeal action in relation to the assets of a debtors, in this case Nadir.

The MLCBI is significant for its provisions on recognition and relief in 4.1. (Its provisions on cooperation and coordination are secondarily important as the liquidator is primarily seeking advice about staying court proceedings in Utopia.) The question requires candidates to apply the relevant MLCBI articles to the facts provided.

2.5

Question 4.2 [maximum 2 marks]

Would it make any difference to your answer in question 4.1 in the following two alternative scenarios to Apex suing for its debt?

- (a) Apex had filed proceedings to wind-up Nadir, but the matter had not yet been heard.**
- (b) Apex had obtained a court order to wind-up Nadir in Utopia prior to the Erewhon winding-up order.**

It would not make any difference to my answer in 4.1.

Elaboration is needed. Refer to Article 29 on concurrent insolvency proceedings, under which the local proceedings in Utopia maintain pre-eminence over the foreign proceedings in Erewhon.

Question 4.3 [maximum 8 marks]

NB: This question is not related to Questions 4.1 and 4.2

A court has ordered the commencement of an insolvency proceeding against a corporate debtor in the State of its incorporation and head office. The company has operated business in a number of States and has assets (real property or interest in land, other tangible assets and intangible assets); creditors (including taxation / revenue authorities) and directors in several States.

Select a country for the company's incorporation and, based on the insolvency laws of the country you select and the brief facts provided, describe four key international insolvency issues facing the insolvency representative in this scenario. For each issue, what domestic laws or international instruments apply to assist the insolvency representative address these four issues?

Using Nigeria as the hypothetical country, 4 issues that will be faced by the insolvency representative are:

- 1. The representative's authority to deal with assets of the company in other States outside Nigeria for the benefit of local creditors;***
- 2. Whether distinct insolvency proceedings have to be opened in each state in which the company's assets are located; and***
- 3. Whether the decisions of the Nigerian court would influence the courts in the various states where the Company's assets are maintained.***

The respective civil procedure rules of the High Court of the Federal Capital Territory, the High Court of Lagos state, and the Federal High Court in Nigeria, all empower the respective courts to issue requests to foreign courts for examination of foreign witnesses. However, such requests may only be made to foreign countries with whom Nigeria has entered into a convention. Unfortunately, Nigeria is yet to ratify any treaty or convention relating to cross-border insolvency. There is no legal framework to address the cross-border elements of insolvency.

For an approach more closely applied to the facts, see the 'Model' Answer for four key international insolvency issues raised by the facts and facing the insolvency representative in this scenario.
