Dear Owen

Case Study II Results

Case study II results have been finalised and approved by the core committee. Your mark for Case study II was **8.0** which is graded as **Very Competent**.

Below is an evaluation of your paper by the examiner.

Structure chart. Ok analysis of structure, issues. Assumption on structuring of solution... In itself clear on possible solutions, which tools to use and the challenges with those. Good high level analysis of ch11 and eligibility/jurisdiction. Good engagement with necessities and challenges of recognition in NL (with on point ref to UK alternative), RO (with bullseye analysis on UNCITRAL Model law (im)possibilities of recognition).

Good analysis and application of WHOA, RO options!

Succinct, clear writing style. Useful (albeit not abundant) use of sources, cites, references. All in all good; falls just short of full-on, comprehensive solution: identifies correctly most of the unknowns/key missing facts, but does not follow through fully on what those might mean and provide options. No engagement with local director issues. No real analysis of stakeholder positions and what might work or not in terms of a plan in view of those.

We are pleased to inform you that you passed Case study II as the required pass mark was 5.00. Congratulations!

Kind regards
